## TECHNICAL SKILLS

**Languages:** Basic C, C++, Core Java, SQL.

**Technologies/Frameworks:** Linux, GitHub, HTML5, CSS3.

**Developer Tools:** VS Code, Android Studio, Sublime Text, Cisco Packet Tracer, SQL, Microsoft Word & Excel.

## PROJECTS

**Tic Tac Toe Application** 🔗 | [Java](#), [Android Studio](#)

**June - July 2024**

- **Core Functionality:** Develops a classic Tic Tac Toe game with a 3x3 grid where players take turns placing Xs and Os.
- **Programming Language:** Utilizes Java, a versatile and object-oriented programming language, for core game logic and functionalities.
- **Android Development Platform:** Leverages Android Studio, the primary IDE for building Android applications, to design the user interface and integrate game functionalities.
- **User Interface (UI) Design:** Creates a user-friendly interface for players to interact with the game, including the grid, buttons for placing Xs and Os, and visual elements for displaying the game state.
- **Game Logic Implementation:** Involves coding game logic to track turns, check for winning conditions (rows, columns, diagonals), and handle tie scenarios.
- [Live site here](#)
